PROJECTS

— The Spiderman Lovers (FrontEnd Project)—

A recreation project created to showcase the abilities of CSS and Bootstrap. It also supports a login page to create an account. Also has the ability to showcase different images based on the account that was used.

—The Git-Rep (BackEnd Project)—

The project makes use of GITHUB Api which helps a user that has an account on the website to view anyone's github local repos and to check their commit history.It has a signup page,login page and the pages to view all the repos with a link to view their commit history.

ABOUT

I am really interested in competitive programming and also love creative problem solving. Also web development is something that i am interested in. I also love photography and have decent skills in photoshop.
